CART DRIVERS DISCHARGED IN MUNICIPAL COURT.

The three city cart drivers, who were arrested Friday upon complaint of Chas. W. Johnson, for dumping street sweepings on Garcon street, were discharged yesterday morning, when they appeared before Recorder Laney in the police court.

It was shown that the men were only obeying instructions in placing the trash there, having received the same from their superior. Furthermore, it was proven that the practice of dumping the trash at that point was started just about four years ago, and has continued each day since that time.

It was the intention, however, of the present officers, to commence a reform in this line as they saw that it did not tend to make that portion of the city very healthy by allowing all classes of refuse to be placed there. This would have been attended to at the next meeting of the Board of Public Works, as several of the members had visited the place and decided to inaugurate a change.

The Wedding Cake.
The custom of having a special cake at weddings was introduced into England by the Romans. This cake, or rather, biscuit, signified fruitfulness, hospitality and prosperity. The rice that was showered upon a bride had a similar meaning. For many centuries after the Romans left the custom was to break the biscuit over the bride's head, and then the fragments were picked up and piled before her for distribution to her friends. At the restoration Charles II. returned with a small army of French cooks, who speedily converted the ancient biscuit into a delicious piece of confectionery, laced it with sugar and gradually adorned it with emblematical devices, till it towered into the amazing structure which the luxury of later times has developed.—London Chronicle.

Hither and Yon.
"Hither and yon," inveighed against as a Yankee importation, is simply a form of "hither and yont," a good, classical Scotch expression and a most useful one, signifying "here and there and everywhere" or "all over the place." It is thus defined in Jamieson:

"Hither and yont, topsy turvy, in a state of disorder. S. yont signifies beyond, hither and yon, A. Bor., here and there. 'Xoo that they're hither and yont frae ane another it behooves a' that wish them weel to tak tent that a breach is no' opened that canna be gigit up.'" (Sir A. Wylie, 2, 20.)

Skeat does not give it, but Halliwell, who deals with English provincial dialects, gives "hither and yon, here and there."—Notes and Queries.
